

Grigorios Polychronakis

Athens, Attica, Greece, 10445 | polychronakisg@hotmail.com | [LinkedIn Profile](#) | [GitHub Page](#)

Profile

Physical Sciences graduate with technical skills in data analysis, scientific processing & AI, complemented by hands-on experience in program coordination and STEM education. Now interested in transitioning to a career at the intersection of science and technology.

Education

MSc in Quantum Computing & Quantum Technologies | ECE Dept. | Democritus University of Thrace | Expected March 2028

BSc in Studies in Physical Sciences | School of Science and Technology | Hellenic Open University, Patras | 2025

Experience

Program Coordinator | Ekpaideutikos Organismos Fotograma | November 2022 – May 2026

- Delivered and coordinated interactive cinema educational programs for students aged 4–17 across Greece, adapting delivery by age, from playful learning for younger students to open dialogue on critical issues within the school environment for teens.
- Managed on-site preparation, technical setup and equipment support and traveled nationwide while building relationships with educators and reaching thousands of students across Greece.

Sales Advisor | Plaisio Computers S.A. | July 2024 – October 2025

- Provided tailored solutions and technical support across the Upgrade and Sound & Vision departments, translating customer needs into product recommendations while developing a data-driven mindset through metrics like conversion rates and KPIs.

Team Leader | Kivotos Paidikes Ypotheseis | June 2024 – July 2024

- Led and supervised youth groups, ensuring safety and well-being across all daily operations and delivered educational sessions including hands-on science workshops that introduced children to complex concepts through simple experiments.

Physics Tutor | Volunteer, Self-Employed | October 2020 – June 2024

- Provided one-on-one Physics tutoring for students aged 11–17, designing personalized study plans based on each student's pace, coursework, learning style and schedule to ensure a structured, effective and goal-oriented long term learning path
- Incorporated hands-on experiments, multimedia content and interactive simulation software to make complex scientific concepts more accessible, monitoring progress and adjusting approaches to build both confidence and academic growth.

Competencies

Technical & Data	Python, Julia, Qiskit, Mathematica, Maxima, GNU Octave, Matlab, R, SQL, MS Excel, MS Power BI, Tableau
Software & Tools	MS Windows, Linux, MS Office Suite & MS Teams, Zoom, Google Workspace, Adobe Acrobat, SAP ERP
AI & Automation	OpenAI ChatGPT, Google Gemini, NotebookLM, Anthropic Claude, DeepSeek, Perplexity AI, Consensus
Transferable Skills	Critical and Analytical Thinking, Science Communication, Team Leadership, Project Management, Time Management, Strategic Planning, Adaptability, Problem Solving, Public Speaking

Development

Anthropic Academy, AI Courses

Certifications in Claude, Claude Code and Claude Cowork 101, AI Fluency Frameworks and Foundation, AI Fluency for Students and Educators, Model Context Protocol Basic and Advanced topics, Introduction to Agent Skills

Coursera and Deep Learning AI

Deep Learning Specialization in Neural Networks & Deep Learning, Hyperparameter Tuning & Optimization, Structuring ML Projects, Convolutional Neural Networks and Sequence Models

Google Professional Certificates in Artificial Intelligence, Data Analytics & Project Management

IBM Quantum Learning Platform

Certifications in Basics of Quantum Information, Fundamentals of Quantum Algorithms, Quantum Error Correction, Quantum Diagonalization Algorithms, Variational Algorithm Design, Quantum Machine Learning, Quantum Cryptography

Vodafone Foundation and SciCo, Generation Next Program, Certifications in STEM Education and STEM Tools

Languages

Greek (Native), English (Advanced), Swedish (Elementary)
